

COMPETITIVE FINANCING FOR CARB-VERIFIED DPFS

Convenient financing options enable you to retain cash and better manage operations

CDTi provides a full range of CARB-verified and EPA-approved retrofit DPFS for the reduction of particulate emissions from on- and off-road diesel equipment. CDTi and STRADA Capital have partnered to provide you with competitive financing options for CARB-verified DPFS from CDTi.

Reduce the Burden of Initial Compliance Costs

CDTi and STRADA Capital support the successful compliance of diesel fleet and equipment customers by enabling them to reduce the burden of upfront emissions compliance costs – spreading the cost over time. Based on decades of experience financing equipment purchases, STRADA Capital offers you a unique blend of benefits:

- **Financing at competitive rates**
- **Single-page application - potentially qualifying you for up to \$200K in financing**
- **Quick 24-hour turnaround on financing approvals**
- **Comprehensive financing to cover all equipment costs – including shipping, installation, etc.**
- **Flexible payment options to fit with your individual needs**

STRADA Financing – Equipment Financing Specialists

As a leading provider of financing for equipment in North America, STRADA Capital is familiar with the needs of fleets and equipment owners. They are an experienced financier for a wide range of trucking equipment and aftermarket installations.

Financing through the CDTi and STRADA Capital partnership enables vehicle owners and fleets to acquire and use equipment from leading vendors on terms that are both convenient and financially attractive to their businesses.

It's Easy. You Can Get Started Today.

For your convenience, authorized CDTi distributors have been trained to start the DPF financing program for you – eliminating paperwork and logistical hassles. To get started, simply contact your local CDTi distributor or a CDTi Compliance Specialist to initiate the application process for you.
